QUALITY IMPROVEMENT PROGRAM-NEW JERSEY (QIP-NJ)  
SOCIAL DETERMINANTS OF HEALTH LEARNING COLLABORATIVE  
(SDOHLC)

## LS2 TEAM PLANNING SHEET

---

**Hospital:** \_\_\_\_\_

**Health System (if applicable):** \_\_\_\_\_

**QIP-NJ SDOHLC Aim:**

By May 2025, NJ acute care hospitals participating in QIP-NJ will ensure that at least 50% of patients with an identified social need subsequently initiate services to address that need within 30 days of discharge from inpatient or ED (OB or General) settings, ensuring that patients receive a trauma-informed and culturally humble care experience at all stages of care. Hospitals will choose to focus their efforts on at least one of the following domains:

- Housing Supports
- Meal Supports
- Transportation Supports

**1. Your team aim:**

*Consider if your team needs to make any changes to your team aim and/or what progress has been made to achieve your aim so far. Note them here:*

**2. Change ideas your team wants to test:**

*What new ideas have emerged from the presentations during the learning session? What additional change ideas do you want to test from the QIP-NJ SDOHLC Key Driver Diagram [HERE](#). Reflect on how these ideas will impact outcomes for your target population.*

**Test of change/Plan Do Study Act (PDSA) cycles for the month after Learning Session #1:**

Cycle No.	Change Idea to test	Who is responsible?	When will it occur? (Start date and end date)	Prediction of outcome and impact on target population?

**3. Measures:**

See [SDOHLC Measurement Strategy](#) for detailed descriptions of each measure. Consider what you learned at LS1 and how it might impact your approach to data collection for the SDHOLC measures.
